## INFO ON COLLEGE STUFF

**PROGRAM**  
Dateable—College Style

**TIME**  
60–90 minutes

**OPTIONS**  
This program is perfect for freshman orientation programs and has also been used in other college programs, including IFC, fraternities, sororities, student government, and student activities organizations.

Thousands of students with a foundation of reading, writing, and arithmetic are thrown into the new, free world of college with absolutely no training on how to deal with the opposite sex. Misunderstanding the opposite sex and how relationships work is costing students pain and heartache, and is costing the university money. Pregnancy, disease, infection, sexual assault, date rape, and even bad breakups account for a lot of drop-outs and college transfers. Dateable can help reverse this trend.

In this program Justin will unravel the mystery. He'll tell the guys' secrets and the girls' secrets. He will destroy misconceptions that guys and girls have about the opposite sex. Then Justin will give them the truth, rebuild their interactions, and give them some of their game back. This program shows girls how to be girls and guys how to be guys, and it is changing the relational climate on college campuses.
